

USC Aiken 2004 Freshman Orientation Survey Results

Selected questions have been made parallel to those on the CIRP Freshman Survey

Note: In 2004, USC Aiken administered a custom survey at Freshman Orientation. Many questions are parallel to questions asked on the CIRP Freshman Survey. It is important to note that issues such as question placement, survey administration, and local data processing may all impact response quality. Data provided here should be interpreted in the context of data from other years, and variation should be viewed with extreme caution.

Based on our experience with this survey, we do not recommend trying to substitute the nationally benchmarked and normed CIRP Freshman Survey conducted by HERI with a locally developed instrument
