Subject: July 30, 2020 CHE Meeting

Dear Dr. Timmons,

At its July 30, 2020 meeting, the Commission approved the following new University of South Carolina Aiken programs for implementation on the dates proposed:

- B.A., Art
- B.S., Earth Systems Science

As a result of pandemic remote-work conditions, I am providing the present notice of Commission action until we can access and update the *Inventory of Academic Programs* database that is secured on site. At that time we will transmit the official approval letter with the CIP code and additional information. Please feel welcomed to proceed with next stages of implementation activities as your institution normally would.

Notices of approval and acknowledgment for modifications and notifications are also forthcoming for any submissions.

Please advise if we may be of additional assistance, and continued best wishes.

Sincerely,

John Lane, DMA
