# NSSE 2016 Respondent Profile

## About This Report

The *Respondent Profile* presents both student- and institution-reported demographic information, allowing one to examine similarities and differences between our students and those at our comparison group institutions. This report uses information from all randomly selected or census-administered students. The display below highlights important details in the report to keep in mind when interpreting your results.

- Class level:** Official Student classification
  - Item numbers:** Numbering corresponds to the survey facsimile included in the *Institutional Report* and available on the NSSE website.
  - Item wording and variable names:** Survey items are in the same order and wording as they appear on the instrument. Variable names are included for easy reference to the data file and codebook.
  - Response options:** Response options are worded as they appear on the instrument.
  - Count and column percentage (%):** The Count column contains the number of students who selected the corresponding response option. The column percentage is the weighted percentage of students selecting the corresponding response option.
- Note: Column percentages are weighted by institution-reported sex and enrollment status. Comparison group percentages are also weighted by institutional size. Counts are unweighted and cannot be used to replicate column percentages. For details visit: [nsse.indiana.edu/html/weighting.cfm](http://nsse.indiana.edu/html/weighting.cfm)
